

The Wiggly Wire

Wiggly says: "My club is just for kids ages 0-12!"

Spring 2009

Wiggly the Worm would like to talk to you about savings. Wiggly says:

-  It is important to learn to save your money. You can save your money to buy something you really want like a video game, a music CD, or a bike.
-  Most people have to save a long time to buy expensive things. Your parents may have saved for months or even years to buy a car or a house.
-  One of the best ways to save money is to put it into a share account (this is another name for a savings account) at Keystone Federal Credit Union. You and your parents can set a goal for the amount of money you need.
-  The more money you save, the more your money will grow!
-  If you save your money at Keystone, you can also earn Wiggly dollars. For every \$5 you save in your share account, you will earn one Wiggly dollar. The more Wiggly dollars you have, the more fun prizes you can buy. There is no limit to the amount of Wiggly dollars you can earn, so start saving today!

In the word search below are some of the great prizes you can buy at the Credit Union with your Wiggly dollars. Try and find the words in the search:
