Spring 2011

A letter from Wiggly...

Wiggly wants to talk to you about planning ahead.

Before you know it, school will be out and **summer** will be here. Have you thought about the fun things you might want to do this summer?

When families decide to go on **vacation**, they usually plan ahead and make a **spending** plan or **budget**. They will decide where they want to go and how much everything will cost.

Your parents will start saving months (sometimes even a year) ahead so that they have enough **money** when it is time for vacation. You can do the same thing. Make a list of all the things you might want to do and come up with a plan on how you will pay for it.

If you get an **allowance**, you can take part of it and save it for college or a car. You can take another part of it and save for summer plans. Then you can keep the rest to spend now. If you find you don't have enough money for what you want to do this summer, then don't spend as much money now. Save it instead!

The best thing to do is to keep all your savings in your **share** account, that way it will be safe and available when you want it!
